Mumbai, India (July 10, 2009)- A recent study conducted by the International Tax Review lists SKP as one of the Top 10 tax firms in India.

The findings of World Tax 2009, a comprehensive guide to world's leading tax firms and tax advisors, were recently made public in the International Tax Review- a magazine dedicated to International Tax. The study puts SKP among the Top 10 Indian tax firms and goes on to state that:

**“Competitors have recommended Sudit K Parekh & Co as an exemplary tax firm. The more than 30 years experience of Sapan Parekh, founder and leading tax partner at the Firm, mean that he and the firm command respect in the market...it is a member of Nexia International”.**

The International Tax Review- an acclaimed magazine among tax executives and advisors the world over, regularly conducts research on leading tax firms. The purpose of the study primarily is to come up with a reliable listing of tax firms and advisors, capable of providing appropriate guidance to corporates; in the light of the increasing bulk of tax issues, new

government notifications, inter-country treaties and agreements and recent court rulings.

The study involved eight International Tax Review researchers and journalists, who conducted interviews; face-to-face and also by phone and e-mail; with corporate tax directors and advisors.
